ARM CHAPTER 55

GENERAL PROVISIONS

The state board of public education is responsible for establishing and maintaining standards for all public schools in Montana. 10.55.601 Accreditation Standards: Procedures

(1) The Board of Public Education adopts standards of accreditation upon the recommendation of the Superintendent of Public Instruction.

(2) The Board of Public Education and the Superintendent of Public Instruction establish procedures and schedules for reviewing the accreditation status of each school.

These plans shall be reviewed on a yearly basis to reflect a continuous improvement process.

(a) Each plan shall include:

(i) a school district level education profile;

(ii) the school district's educational goals pursuant to the requirements of ARM 10.55.701;

(1) A local board of trustees may apply to the Board of Public Education through the Superintendent of Public Instruction to implement a variance to a standard or a section of standards, excluding standards stating statutory criteria, standards pertaining to educator licensure or endorsement, and content standards as defined by the Board of Public Education and provided in guidance from the Superintendent of Public Instruction.

(a) In its application, the local board of trustees shall outline how and why its proposed variance would be workable, educationally sound, and designed to meet or exceed results under established standards and, where applicable, aligned with program standards under ARM 10.55.1101 through 10.55.1901.

(b) In its application, the school district shall provide evidence through official minutes of the board of trustees that local school community stakeholders were involved in the consideration and development of the proposed variance to standards. Stakeholder groups include trustees,

administrators, teachers, classified school staff, parents, community members, and students as applicable. A district shall provide evidence it adopted its application for variance at an official, properly noticed meeting of its board of trustees.

(c) An application for variance to standards to take effect at the beginning of the academic year is due in writing to the Superintendent of Public Instruction no later than the first Monday in March. An application for variance to standards to take effect the second semester of the academic year is due in writing to the Superintendent of Public Instruction no later than the first Monday in July.

(d) Upon receipt, the Superintendent of Public Instruction shall refer applications for variance to standards to a pre-appointed review board. The Superintendent of Public Instruction shall facilitate and provide organizational support for the meetings of the review board.

(i) The review board shall consist of the following, appointed by the Superintendent of Public Instruction from a list of qualifying individuals jointly endorsed by MEA-MFT, Montana Rural Education Association (MREA), Montana Small Schools Alliance (MSSA), School Administrators of Montana (SAM), and Montana School Boards Association (MTSBA): one trustee, one district superintendent, one high school principal, one elementary principal, two high school teachers, and two elementary school teachers.

(ii) As needed, the review board shall seek advice from experts.

(A) The Superintendent of Public Instruction shall solicit a pool of experts from curriculum groups and educational associations to serve "on call" in an advisory capacity.

(B) The Superintendent of Public Instruction shall notify the review board of the pool participants with rationale and present them for review board approval.

(C) The review board shall notify the Superintendent of Public Instruction when and what type of experts are needed.

(D) The Superintendent of Public Instruction shall notify the appropriate pool of experts of this needed input and arrange for the pool member(s) to advise the committee.

(iii) The review board members shall serve five year terms with no limit to the number of terms any one person may serve. Terms shall be staggered where half of all positions shall be filled every three years prior to the first meeting of the review board in the third year.

(e) The review board shall review all applications and use a uniform rubric, made available to districts in advance of applying to implement a variance to a standard or section of standards. The uniform rubric will ensure consistent and high quality applications from school districts across Montana.

(f) The review board shall provide its recommendations to the Superintendent of Public Instruction with a recommendation for approval, modification, or rejection of the review board's recommendation within 60 calendar days of the review board being referred an application.

(g) The Superintendent of Public Instruction shall provide the Board of Public Education with a recommendation for approval, modification, or rejection of the review board's recommendation.

(h) If the Superintendent of Public Instruction or review board finds an application to be preliminarily deficient, the superintendent shall advise the applicant school district why that application is not ready for consideration. The applicant district shall have the opportunity to change its application as suggested or submit it as originally proposed.

(2) The Board of Public Education shall approve or deny proposed variances to standards. If the board denies a proposed variance to standards, it shall remit in writing to the applicant school district why it has done so.

(3) If the Board of Public Education approves a proposed variance to standards, it shall initially do so for no more than two years pending ongoing review of the implementation by the Superintendent of Public Instruction.

(4) Following the second year of implementation of a variance to standards, the school district shall provide evidence to the Superintendent of Public Instruction that the methods selected by the district implement, meet, or exceed results that could have been achieved under established standards.

(5) If the Superintendent of Public Instruction finds the variance is workable and educationally sound, the Superintendent shall report findings and recommend continued approval to the Board of Public Education.

(6) If the Board of Public Education concurs with the Superintendent's recommendation, it may renew the variance for no more than three years.

(7) The Board of Public Education may subsequently renew the variance provided the district continues to show how the variance meets or exceeds established standards.

(8) If the Superintendent of Public Instruction finds the variance to standards is not working as intended or does not meet or exceed results that could be achieved under established standards, the superintendent shall recommend to the Board of Public Education that the variance be revoked.

(9) If the Board of Public Education accepts the Superintendent's recommendation to revoke a variance, the board's decision is final.

(10) A school district may discontinue an approved variance at any time. If it does so, it shall promptly notify the Superintendent of Public Instruction in writing.

(11) A school district may apply to the Board of Public Education through the Superintendent of Public Instruction to create a charter school.

(a) A charter school must provide an education that meets or exceeds the requirements of the Montana Constitution, state law, and school accreditation standards.

(b) The Board of Public Education may only grant charters to publicly funded schools or programs under the supervision and control of a locally elected board of trustees in an existing school district.

(c) The procedure by which a school district may apply to create a charter school and by which the Board of Public Education may approve, deny, evaluate, and renew a charter school shall be identical to that outlined in ARM 10.55.604.

(d) To be proposed by a school district and approved by the Board of Public Education, a charter school shall, at a minimum, guarantee the following:

10.55.606 Accreditation Process

(1) The categories of accreditation of a school shall be determined by using two sets of standards:

- (a) assurance standards; and
- (b) student performance standards.

(2) Assurance standards are comprised of the following subchapters in ARM Title 10, chapter 55:

- (a) Subchapter 6, General Provisions, ARM 10.55.601 through 10.55.607;
- (b) Subchapter 7, School Leadership, ARM 10.55.701 through 10.55.719;

- (e) Subchapter 10, Program Area Standards, ARM 10.55.1001 through 10.55.1003.
- (3) Student performance standards are comprised of student performance measures for each grade as follows:
 - (a) Math and reading average scale score range for all students grades 3-8 and 10 and science average scale score range for all students grades 4, 8, and 10:
 - (i) Level 1 = 300-250;
 - (ii) Level 2 = 249-220;
 - (iii) Level 3 = 219-210;
 - (iv) Level 4 = 209-200; and
 - (b) For high schools, graduate rate range:
 - (i) Level 1 = 100.0%-75.0%;
 - (ii) Level 2 = 74.9%-60.0%;
 - (iii) Level 3 = 59.9%-55.0%;
 - (iv) Level 4 = 54.9%-0.0%.
- (4) For schools with any combination of grades only K-2, only the assurance standards will be used to determine accreditation status.
- (5) There shall be four levels for assurance standards and student performance standards used to determine accreditation status, as described in the Accreditation Status Criteria Reference Guide, a copy of which may be found at: <http://www.opi.mt.gov/pdf/Accred/Ch55/Appendices.pdf>. The highest level is 1 and the lowest level is 4.
- (6) A school shall be classified as regularly accredited by using the combined results of the assurance standards and student performance standards as follows:
 - (a) level 1 for all assurance standards and level 1 or 2 for student performance standards; or
 - (b) level 1 or 2 for all assurance standards and level 1 for student performance standards.
- (7) A school shall be classified as regularly accredited with minor deviation by using the combined results of the assurance standards and student performance standards with level 2 in any category in both sets of standards.
- (8) A school shall be classified as accredited with advice by using the combined results of the assurance standards and student performance standards with level 3 in any category in either set of standards.
- (9) A school shall be classified as accredited with deficiency by using the combined results of the assurance standards and student performance standards with level 4 in any category in either set of standards. (History: 20-2-114, MCA; IMP, 20-2-121, MCA; NEW, 2000 MAR p. 3340, Eff. 12/8/00; AMD, 2012 MAR p. 2042, Eff. 7/1/13.)

10.55.607 Internships

- (1) Internships are defined in ARM 10.55.602.
- (2) As part of an internship agreement, the parties must agree to the following:
 - (a) the intern will complete the requirements for the appropriate endorsement within three years;
 - (b) the school district will provide local supervision and support of the intern; and
 - (c) the accredited educator preparation program will approve the coursework and provide support and periodic supervision.

(3) If entering into internship agreements, the accredited Montana educator preparation program must report each enrolled intern to the Superintendent of Public Instruction no later than November 15 of each year.

(4) For each intern a district desires to have deemed appropriately assigned, the school district must report to the superintendent during the annual data collection, at the beginning of years two and three of each internship agreement, the intern's yearly progress toward completion of the program of study.

(5) An intern may be considered appropriately assigned for up to three years while enrolled in and making progress toward completion of a Montana accredited educator preparation program. Extension may be granted at the discretion of the Superintendent of Public Instruction as authorized in ARM 10.57.109. Requests for extension must be submitted by the intern and supported by the accredited educator preparation program and the school district. A request for extension must demonstrate evidence of extreme hardship or other circumstances beyond the control of the intern which prevented timely completion of the agreed upon plan of study.

(6) If an intern fails to show sufficient and satisfactory annual progress in the plan of study toward completion of a Montana accredited educator preparation program, the Superintendent of Public Instruction may consider that intern inappropriately assigned.

(7) An emergency authorization of employment granted by the Superintendent of Public Instruction pursuant to 20-4-111, MCA is not a license; it is granted to a district which, under emergency conditions, cannot secure the services of an appropriately licensed and endorsed teacher or principal. A person authorized under 20-4-111, MCA is not eligible for an internship. (History: 20-2-121, MCA; IMP, 20-2-121, MCA; NEW, 2012 MAR p. 2042, Eff. 7/1/13.)

PROGRAM AREA STANDARDS

Much of the accreditation process is based on a school's ability to meet the fundamental learner goals set forth in the Program Area Standards that follow. The standards are minimums and not the only goals a school should set for its students.

The Program Area Standards give guidance in identifying subject matter and degrees of sophistication to be emphasized at each level of the education program.

For organizational purposes, the Program Area Standards are outlined by learner areas. They do not intend to specify course titles unless noted otherwise.

COMMUNICATION ARTS PROGRAM

Language is at the core of successful schooling and living. Through language, humans learn beyond their own direct experiences; through their skills, concepts, and experiences in the communication arts, students become educated not merely in “English,” but in all subject areas. Thus, effective communication arts programs have a very high priority in the curricula of Montana schools.

The education program in Communication Arts encompasses the study of language and literature, the development of reading, writing, speaking and listening, effective media use, and the nurturing of creative, logical, and critical thinking.

ARTS PROGRAM

The Arts provide a means of expression and communication that goes beyond speaking and writing. The Arts are our most illuminating and universal form of language; through them we transmit to our children our cultural heritage and humanity.

The Arts dynamically cultivate all of the senses, emotions, and intelligences. They are the means by which students develop literacy in the symbol systems fundamental to higher order and critical thinking. And, they constitute a dimension of learning, which extends and fulfills human experience.

The Arts are not complete until understandings are found between and among the arts and they are integrated with other disciplines.

HEALTH ENHANCEMENT PROGRAM

Health Enhancement teaches children the importance of personal and community health through the promotion of a responsible lifestyle. It helps them actively develop, maintain, and improve their health as well as an awareness of society's critical health issues.

Health Enhancement is a comprehensive program that combines the traditional disciplines of "health" and "physical education" in a more balanced program. Concepts learned in the classroom are reinforced and put into practice in the gymnasium. Healthy, well-nourished and physically fit children learn better, miss less school, and take a more active role in their own education. A healthy state transcends the physical and also includes the emotional, social and intellectual dimensions of health.

MATHEMATICS PROGRAM

In this changing world, those who understand and can do mathematics will have significantly enhanced opportunities and options for shaping their futures. Mathematical competence opens doors to productive futures. All students should have the opportunity and the support necessary to learn significant mathematics with depth and reason inductively and deductively, and to apply the numerical and spatial concepts necessary to function according to their needs in a technological society.

Priorities for basic mathematical skills include more than computation. A technological society requires daily use of skills such as estimating, problem solving, organizing and interpreting data, measuring, predicting, and applying mathematics to everyday situations.

Mathematics is a dynamic, growing, and changing discipline whose cross-curricular significance requires its integration into all academic areas. An effective curriculum is responsive to recent developments in mathematical knowledge, the needs of an information society, the availability of technology such as computers and calculators, and includes relevant application of mathematics.

(History: 20-2-114, MCA; IMP, 20-2-121, 20-3-106, 20-7-101, MCA; NEW, 1989 MAR p. 342, Eff. 7/1/89; AMD, 2001 MAR p. 953, Eff. 6/8/01.)

SCIENCE PROGRAM

Science is a creative process used to investigate natural phenomena, resulting in the formation of theories verified by directed observations. These theories are challengeable and changeable. Data must support or contradict these theories.

Career and Vocational/Technical Education programs include Agriculture, Business and Marketing, Family and Consumer Sciences, Industrial Technology, and Trades and Industry.

Career and Vocational/Technical Education programs focus on career preparation, resource management, communication, technical skill development, applied academics, technological literacy; and personal skills and leadership. Programs are driven by authentic applications where students will be prepared for the workplace.

The Career and Vocational/Technical Education students are empowered to be successful in today's world.

WORLD LANGUAGES: PROGRAM

World Language study includes Modern, Classical and Native American languages. World Language study is communication-based and requires a sequential curriculum that provides consistent and increasing contact with the target language and culture. Communicative proficiency depends on the amount of time spent acquiring and refining skills inherent in language-learning experience. As an integral part of the core curriculum, World Language has immediate real-world applications. The study of World Language nurtures cross-cultural appreciation and fosters student learning through integration with other curricular areas. Communication is an inherently human activity; all children benefit from the opportunity to learn a second language.
